

True as steel  
Perfection, our passion

**JONKERS**  
BOLWMETRAAL

Jonkers Bouwmetaal is a family company founded more than thirty years ago in 1986. Throughout the years we have become a well-known partner that sets the standard in an extensive range in steel products. Due to innovative thinking, each product is connecting safety, craftsmanship and design to your piece of art.

We have our roots in the heart of the Netherlands near Amsterdam, but our branches bear fruit internationally as well! Known for our steel and stainless steel profiles in combination with glass doors and windows, we established a valued position. Besides that, we offer a high level of expertise in the design and use of elegant flush door constructions.

# Jonkers mindset

Our level of craftsmanship puts quality above quantity. To ensure that quality we use Swiss made profiles and we choose to only use the very best elements and materials for our products.

## Unique aspects:

- ✓ Swiss made materials
- ✓ Manufactured by Dutch craftsmanship
- ✓ Family driven company

# Steel doors: combining elegance with durability

Our steel doors are built to last! The impressive slim aspects of our doors and window elements combine architectural design, comfort and well-being with excellent heat and sound insulation. Our coated profiles ensure an elegant, maintenance free and durable product.

## Unique aspects of our steel doors:

- ✓ Durable
- ✓ Maintenance free
- ✓ Excellent heat and sound insulation
- ✓ Slim and elegant

# Stainless steel doors: combining safety with beauty

Give your doors, windows and fixed lights character by using our stainless steel profiles. Whether you are considering using stainless steel for its functionality or for a refined look, our profiles will meet both requirements. Safety comes first; but surely doesn't have to get in the way of beauty.

## Unique aspects of our stainless steel doors:

- ✓ A refined look
- ✓ Bulletproof
- ✓ RC3 tested burglar-proof
- ✓ Fire-resistant

# Bulletproof

Bulletproof doors and elements are essential for buildings where safety is a priority, for example governments, banks and private houses. Steel is used to armor our doors. In this way damage caused by bullets is limited and optimum safety is ensured.

## Unique aspects:

- ✓ Unique aspects:
- ✓ Limited damage
- ✓ Optimum safety insurance
- ✓ Bullet proof FB4 according to EN 1522
- ✓ Freedom of design

# Burglarproof

Our door and window systems respond to the growing need for security. They have been successfully tested by international institutes. Without affecting its appearance, our door systems can be provided with multi-point locking up to RC4!

## Unique aspects:

- ✓ Bring design in, keep burglars out!
- ✓ Burglarproof up to RC4 according to EN 1627
- ✓ Tested and approved

# Fire resistant and smoke proof

Our doors are fire resistant for more than 90 minutes, due to their profiles and a new, intelligent fire retardant filling. Furthermore, integrating fittings, locks and accessories in the profiles is easy, even with the doors featuring double rebate seals.

## Unique aspects:

- ✓ Fire resistant for more than 90 minutes
- ✓ Integrating accessories in the profiles is easy
- ✓ Provided with intelligent fire retardant filling
- ✓ Bullet- and burglar resistant as well!
